Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at the places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures uniformity of excellence, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will no disappoint you in the cure of

Salt Rheum, Tetter, Scald Head.
Syphilis, or Venereal Disease.
Nervous and General Debility,
Old Sores, Ulcers, Tumors,
Abgcesses, Boils, Eruptions
Scrotula or King's Evil,
Female Derangements,
White Swellings,
Fever and Ague,
Chills and Fever.
& Dumb Ague.

As a means of building up the consiitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the spring and early Summer, it will be found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilla must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula: but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate doses, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set free in the system by the Sarsaparilla, and in this way facilitate the return to normal functional operations. —o— 46

Max Havelaar BY MULTATULI.

It is difficult to say whether Max Havelaar is more interesting as a novel or powerful as a political pamphlet. From either point of view it is of rare and first rate excellence, In its life-like actuality it constantly recalls Defoe, while in its tender and original humor it suggests

A HUNDRED IMITATIONS OF COD-LIVER OIL are being sold everywhere. Thousands of suffering persons are defrauded by this means, and cruelly wronged, and, as a consequence, an invaluable remedy falls into disrepute, by this shameful imposition. To guard against the foreging fraud the most effective means consist in buying the article from reliable dealers reputed beyond suspicion, and verify the article by a close inspection of the wrappers around the bottles, and also observe the name of the firm blown in the glass, without which none is genuine. Lamman and Kemp's Pure White and Black Cod Liver Oil, enjoys an undisputed reputation for its purity throughout the Western Hemisphere, Europe and Australia. Only livers extracted from fresh fish, are used in its preparation, and it can be kept sweet for any length of time in any climate from the Pole to the Equator. Its unfailing efficacy is traceable to its purity, never having been known to fail even in the most acute cases of disease of the lungs, bronchitis, pneumonia, incipient consumption, congestion and consumption of the liver and all lung and throat affections, complicated by scrofula. To effect a cure in the shortest possible time, use one spoonfull of the oil mixed with two of the Pectoral of Anacahuita.

THE OPENING CAMPAIGN.

So many of our readers enquire about the various scenes of action at present brought before the public in connection with the names of Arredondo, Rocca, Campos, Rivas, Mitre &c. that we propose to take a bird's-eye view of the extended field of operations as indicated by the opening campaign.

Mendoza, where the battle recently took place between Gen. Arredondo and Governor Civit, is about 700 miles, as the bird flies, west of Buenos Ayres. It was founded by Governor Mendoza, who marked out the city of Buenos Ayres, and is consequently 300 years old; at least it would have been so but for the earthquake of 1861 which entirely destroyed it and all its inhabitants, including the English Consul and the famous French *savan* Bravard. The new city was built close to the ruins of the old, and has probably 8,000 inhabitants, say half the population of old Mendoza. It is, or was, the centre of a flourishing trade with Chile in fat cattle, and several Chilians are settled in Mendoza. There are excellent mineral baths at Inca's Bridge, on the road to Chile, but the overland route by Uspallata is now little frequented, as passengers prefer to go by steamer through Magellan's Straits. The situation of Mendoza is charming, under the shadow of eternal snows covering the peaks of the Andes, which form a lovely picture at sunrise or sunset. The Mendocinos suffer from goitre and civil wars. They grow grapes, alfalfa &c. in great abundance, but the wine is interior to Madeira or Rudesheimer Travellers can go to San Juan (48 leagues) in two days in times of peace.

San Luis, where Colonel Rocca was by last advices, is capital of that Province, but by no means a place of commercial or general importance. Most of the houses have thatched roofs, but the Puntanos are reckoned the best cavalry in the Republic. There was some talk of establishing colonies last year between El Morro and Rio Quinto, the only drawback being a want of water. In fact a desert of 40 leagues intervenes between Rio Cuarto and San Luis, which Colonel Rocca has just traversed. If he push on his march towards Mendoza in quest of Arredondo he will have to cross 25 leagues of Indian country and the River Desaguadero before reaching La Paz. This is a delightful halting-place on the road to Mendoza, and after 20 leagues more the road lies through poplar-planted 'alfars' for fattening cattle, fertilized by the snow-streams of the Andes. The city of San Luis lies about 450 miles W.N.W from Chivilcoy, this being nearly the route of Clark's proposed railway from Buenos Ayres to Chile. The census gives San Luis 3,748 inhabitants, viz., 2,128 women and 1,620 men, the preponderance of the former being due to the wars. There are 63 Europeans, mostly French; besides 85 Chilians. The population of the whole Province is 52,761, the females being 4,000 more than the males.

Dolores, the present head-quarters of the combined Government armies of the West and South, numbering about 10,000 horse and foot with 22 Krupp cannon, under Col. Luis Campos, is the extreme terminus of the Southern Railway, 130 miles from B. Ayres. The population is 3123, the women being 200 more than the men. It is famous for the revolution against Rosas in 1839; a bust of the leader, Castelli, is on the monument in the Plaza, with iron seats all round. The principal buildings are, the new church, town-hall, Juzgado, theatre, Bank, public schools, and railway terminus. The line of railway has just been completed from Chascomus (60 miles) but the dividends to the Shareholders in England will probably fall short of their expectations. Dolores is not so gaily situated as some other towns, the swamps and lagoons of Vicino, Tordillo, Cruces, Hinojal, Salomon, Rengos and Durazno covering a large tract of country, and the forest of Tordillo occupying an area of 100 square miles. The department comprises 228 estancias, with a total area of 82 square leagues, nearly one-half being taken up by the estancias of Parravicini and Anchorena. The population of the department is 7203, of whom only 20 are English. The town of Dolores is 7 leagues from the seaboard.

Tuyú, where General Mitre landed on the 26th October to put himself at the head of the revolution, is 12 leagues from Dolores, and 50 from Buenos Ayres. The town is sometimes called Lavalle, sometimes Ajó, sometimes Tuyú; it consists of a wooden church, three wooden houses and six pulperias, and is chiefly remarkable on account of the adjoining Gibson estancia, which visitors from England often come to see, the stock comprising 60,000 sheep, and the farm covering 50,000 acres. The port of Tuyú or Lavalle is three leagues up the Ajó river from the ocean: its trade averages 70 vessels yearly with a gross tonnage of 3100 tons. Most of this trade passes through the office of Messrs. Rubio and Co. There are two graserias. The coast line is sand-hills, then a series of swamps, and further inland thickets of great extent, as at Rincon del Carnero. The district counts 850,000 sheep, 165,000 cows (before the last drought), and 35,000 horses; also 36 pulperias, 6 Alcaldes, 346 Nat. Guards and 3381 inhabitants. The estancias of Cobo, Leloir, Pardo, Gibson &c. are those of greatest extent. The lagoons of Limpia, Barrancosa, Mate, Espiritos and Cangrejal offer difficulties in a campaigning sense, and are equally unpleasant to travellers in rainy weather.

Bahia Blanca, where Colonels Luis and Julio Campos suppose that Gen. Mitre is going to establish his head-quarters until the arrival of General Arredondo from the Provinces, is nearly 100 leagues from Tuyu, but only 120 direct overland from Buenos Ayres. If General Mitre proceed thither he will probably pass through Tandil, which is midway between Tuyu and Bahia Blanca. The distance from Dolores to Bahia Blanca is over 80 leagues, through a rolling country interspersed with wood and water as far as Tandil; thence southward it is very thinly populated till reaching the English settlement of Sauce. The mail-coaches used to run between Bahia Blanca and B. Ayres in seven days, but the sea-voyage is usually preferred, averaging five days by sailing-vessel or three days by steamer. Colonel Martin Rodriguez built the fort of Bahia Blanca in 1828, and Rosas established a town there in 1833, after which it grew prosperously till the fall of Rosas in 1852, when the Indians ravaged the whole settlement, burned the town, killed the inhabitants, and carried off the cattle. The canal made by Rosas still exists. An Italian Legion was established at Bahia Blanca in 1856, but they killed their commander and broke up the settlement. Some Swiss and English settlers ventured there in 1863, and the district has made great progress in the last ten years. Wheat is grown so extensively that thousands of bushels are exported yearly to Buenos Ayres and elsewhere. The climate is favorable for wine-growing, the native Chocoli wine being liked by some people. Snow falls sometimes. Timber abounds; so do bizcachos, ostriches, salt, Indians and violent winds. It is by no means a pleasant place even in summer, there being no opera season, nor any amusement except hunting, and this is dangerous, owing to the Indians.

THE SITUATION.

FORTY-FIFTH DAY.

Cannon-shots at 9.30 on Friday evening were heard by many people living in different quarters of the city. Some even say they saw rockets, but this may have been a delusion, owing to the hour. As yet we are ignorant of the cause of the cannon firing, which at first seemed like the sound of distant thunder. The *Nacional* supposes it was a foreign gunboat celebrating some anniversary. Such an occurrence took place in Montevideo by an American war-steamer some 15 years ago, and in Cork aboard an English corvette some ten years ago; in both cases the Commanders were dismissed the service, as it is forbidden to fire after sundown. The *Nacional* adds that the rockets were sent up from the War-Office as experiments for signals.

The *Telegrafo* of Montevideo says that the Argentine fleet arrived there on Friday morning and left at 1 p.m. steering west. The Paraná and Montevideo were off Flores island in the morning.

The *Nacional* of last night has an admirable article on Foreigner's from which we take the following paragraphs, and only regret time will not allow us to reproduce it to-day in full.

"Foreigners, whether in peace or war, are entitled to the full protection of the Constitution, and bound only to obey the laws. They have not to decide whether elections are legal or fraudulent, since they have no vote. If an armed struggle ensue they are bound to the strictest neutrality, and we are happy to say that up to the present that neutrality has been strictly observed by all foreigners of any standing among us.

"It is said that most of the foreigners in the camp are of Mitrista sympathies. They have a right to be Mitristas if they like inside their own doors, but if they be so out of doors the Government must punish them.

"Meantime the interests of foreigners in the camp are worth hundreds of millions, and must not be left at the mercy of any subaltern who may take it into his head to imprison, rob, or kill on his own account. The state of siege should not be made to weigh upon foreigners, who look after the real interests of the country while we are fighting for our institutions.

"Let the Government send influential Commissioners to the Camp Districts to see that foreigners are protected; they must not consider whether such a man be Mitrista or Alsinista, but simply as a foreigner deserving our protection."

Colonel Dantas, with two squadrons of cavalry, left town yesterday by train for Dolores, to act as escort to Minister Alsina. Colonel Muslera proceeded from Punta Lara to Carmen de Flores with the Ensenada and Magdalena militia.

The Army of Reserve at Rosario is to be under the command of Colonel Ayala, and to comprise 15,000 men, being 3,000 each from the Provinces of Cordoba, Santa Fe, Entre Rios, Corrientes and Buenos Ayres. The Cordoba contingent is to be under the command of Colonel Lucio Mansilla, who leaves for Cordoba on Tuesday.

The National Guard of Cordoba city is to be called out and formed into 5 battalions of 600 men each for the 5 'cuarteles' of the city.

An express-train left yesterday for Dolores with Commissaries taking over 100,000 hard dollars, to pay the combined Government army (10,000 men) a month's salary. Minister Alsina, says the *National*, will remain some days at Dolores.

Telegrams from Corrientes, 5th instant, by Governor Gelabert, shew that the revolutionary forces of Goya and Esquina are gone towards Mercedes, being pursued by Colonel Obligado. Major Aguirre captured 600 horses.

LATEST FROM BRAZIL.

Rio Janeyro, Oct. 24th.

Two small steamers for the Argentine Government have arrived here and seem nowise disposed to continue their voyage to the River Plate, doubtless because their insurance does not cover capture by insurgents.

The *Diario do Rio* (opposition paper) blames the Government for having allowed the gunboat Paraná to take supplies at Rio Grande, which it regards as equal to granting the recognition of Belligerents to Gen. Mitre's party. The *Nacao* (ministerial organ) replies—"The Argentine Government knows our neutrality and relies on it. The capture of traitors is the duty of the Republican fleet, not of ours; since we have nothing to do with the internal questions of other States."

The Minister of Agriculture has published his Relatorio, in which much attention is given to Immigration. It appears Brazil has expended in the last 25 years no less than two millions sterling on Immigration, and the actual returns of her various agricultural colonies are summed up thus:

	Population.
Imperial colonies, such as Leopoldina, Blumenau, &c....	16,360
Provincial do. in S. Catalina, Rio Grande, &c.....	23,000
Independent do., such as San Leopoldo, Saut Isabel, &c..	22,640
	62,000

Thus each colonist has cost the Empire about 160 patacons, or £32 stg., the colonists being nearly all Germans. This does not include spontaneous immigration, which consists of 4,000 or 5,000 passengers annually from Portugal.

Rio Grande do Sul is the favorite field for immigration, the number of German settlers exceeding 40,000. The State Government pays £6 sterling for every adult colonist, and half-price for children, besides giving them land grants, conveying them to their destination, and allowing them 10 cents per day for a certain period, obliging them in five years to pay back these expenses. There are other Provinces, such as Espiritu Santo, where the premium for immigrants is as high as £20 a head; the Imperial Government pays a part of this sum, the Provincial exchequer the rest. Meantime the single Province of Rio Grande has as many colonists as the other nineteen Provinces of Brazil collectively; partly owing to its favored soil and climate, partly to the friendly character of the Rio Grandenses. The colonies in the other Provinces often come to grief, as last year in Bahia, when the Germans were penniless in the streets and had to apply to their Consul to send them home. The same happened with some English colonists in Rio Janeiro, who besieged the British Consulate. Portuguese make good settlers, and earn so much money that Brazil threatened to drain the mother country of working hands. The Portuguese Government put such obstacles to immigration that the number has fallen off to half what it was.

The Pope's Bull of May 18th, 1874, warmly applauds the conduct of the Bishops of Pará and Pernambuco in dealing with Masonic associations as 'secret societies' forbidden by Church law. His Holiness compares the captivity of the Bishops to his own, and exhorts them to patience and fortitude.

The new Brazilian loan in London is all arranged, amount five millions sterling. Brazilian bonds in London have again risen to par.

The Province of Rio Janeiro has borrowed £100,000 sterling from Baron Mesquita at 7 per cent.—*Siglo.*

EDITOR'S TABLE.

A Packet Edition will be issued for the Liebnitz to-morrow, containing all the latest news up to noon. We recommend early application.

The most important news in connection with the Situation yesterday morning was the decree of the National Government calling out a Reserve Army of 15,000 men, to be stationed at Rosario. Things are evidently destined to warm up before they cool down. All town was talking yesterday about four or five cannon shots heard from the river on Friday night about half past 9 p. m. We were burning, if not the midnight, the vesper oil at that hour, and on hearing the reports, apparently at a great distance, at first thought they were thunder; we consulted our 'ticker' and found the hour to be what a 'commis voyageur,' or a railway time-table would call 9.32. Yesterday morning we found that most of our subscribers had also heard the firing, and several said they had seen rockets go up from the city at the same hour; others declared they had also heard shots riverward at 8 o'clock a. m. yesterday. We did not hear these, though out of bed for three hours at the time. Nothing was spoken of for half the day but the aforesaid shots, of which, however, nobody could give any satisfactory explanation.

It was rumoured yesterday that the R. M. steamer Douro was in, and a tender went out to look for and welcome her. She came back as she went, however. No Douro; but she will probably arrive to-day.

Early travelling. The Emperor of Brazil is, probably, one of the earliest travellers of the day. The *Globo* says H.M. and the Cabinet Ministers having started in a special train from San Christoval, reached Pirahy at half-past four in the morning, and after a short halt proceeded to Cachoeira, crossing some wonderful viaducts on the new line which is to connect San Paulo and Rio Janeyro. Cachoeira is 1,650 feet above the sea level. The journey there and back occupied 24 hours, H.M. being warmly applauded everywhere.

Vicount Nitheroy returned to Rio in the Cotopaxi, after a trip to Europe for his health. Viscount Cotegipe is gone to Bahia. Mr. Edward Wilson, of Rio, has received permission from the Emperor to wear the uniform and decorations of the Order of St. Maurice and St. Lazarus, granted to him by the King of Italy.

We find the following in the *Brooklyn Argus*:—"The ambulance of the Eastern District, borrowed some days ago by the Western District, was returned to-day. It is doing good service. Indeed, since the ambulance was placed at the disposal of the Eastern District Hospital, several lives have been saved by it, through the vigilance and promptness of Dr. Oliver J.D. Hughes, the Ambulance Surgeon, of Buenos Ayres."

The *Campaña* of Minas relates the following occurrence.

"Last Friday it happened that D. Felipe Echeverria, cousin of Dr. Rus, went into the Independencia hotel at 9 o'clock and had a slight altercation with the proprietor D. Domingo Perez, who at once sent for the police. The Alcalde Eneas entered the hotel with his hand in his trousers-pocket, and, going to the room where Echeverria was, said to him 'Follow me!' Almost immediately a shot was heard and Echeverria fell on the floor in a pool of blood, shot through the right ear. The Alcalde then said 'I have shot him and take all the responsibility as Alcalde.' The Assistant alcalde and Commissary Garrido came up with some policemen and took Eneas to the Policia, but after a little Eneas and the Assistant-alcalde came back, stepping over the corpse, and entered the hotel as if nothing had occurred. The townfolk are alarmed at these repeated occurrences, but the Gefe Politico remains at his estancia selling hides, and the Assistant inspires them with no confidence.

The *Siglo* of Montevideo publishes a letter from Dn. Herman Elizalde to his brother Rufino, mentioning his arrival at Tuyu after 9 nights without sleeping, crossing flooded arroyos, and suffering all kinds of hardships.

Our highly esteemed colleague Dear Daws requests us to call the attention of his patrons to the fact that his list for English papers for 1875 will positively close for good on the 12th inst. after which date it will be too late. Those who wish to continue their subscriptions are, therefore, respectfully asked to advise him as soon as possible. He 'delivered' *Godey's* and *Harper's* on Friday to his subscribers. Excellent magazines they are.

A Game at Foot-Ball is arranged to be played to-morrow at Palermo between the members of the Foot-Ball Club and the officers of H.M. Ships in port. Play will commence immediately after arrival of 1 30 p.m. train from the Central Station. We look for an exciting game; sore shins there are sure to be, but we trust that there will be no broken arms or collar bones. Numerous ladies have promised to grace the ground with their presence, and wherever the 'pleasant' sex go they are sure to attract a number of attendant cavaliers. The weather is now settled, therefore an enjoyable afternoon may be anticipated.

The weather was 'galuptious' yesterday — Spring tinged with a few drops of Extract of Summer—and all hope that we have seen the last of the most unpleasant 'primavera' experienced in the River Plate for years. Can our readers guess "where smiling Spring her earliest visit paid" this ere year? To Standard Court of course. The first Bee of the season is buzzing round our ink bottle as we write; a noble specimen of its kind. More luck to it! It is really most remarkable how the first bees of the season always make for the Court. "Sweets to the sweet!" Oh! Ah! Stung, by Jupiter!

The Minister of War left for the Headquarters of the Army at Dolores on Friday morning, accompanied by a brilliant staff and a guard of the 6th regiment of the Line.

Don Hector Varela, in a letter to the *Idea*, cautions the press of the Plate against the monstrous 'canards' sent to it by telegraph from Europe. We must say our colleague's caution does not come amiss. This mania for lying by telegram is one of the evils of the age. We are just as much, indeed more shamefully addicted to it in this quarter of the world than they are in Europe. The astounding 'bolas' that have been sent to Brazil and the Old World respecting the present state of affairs in this country are proof of Platine fertility of invention. Many people suggest that, to check the evil, the Telegraph companies on both sides ought to make the senders of news take their oath of its veracity in the office before sending on the message, a special official, to be called the Swearing Clerk, to be employed to facilitate despatch of business. He would require to be well paid, as the swearing department would certainly involve some remarkably *hard* work.

Madame Douvry, the popular 'danseuse' at the Alcazar, was arrested on the mole on Friday last on her return from Montevideo. She was at once taken to the Policia, interrogated and set at liberty.

Three theatres are open to-night. Lucia de Lammermoor will be given at the Opera House, with the new 'prima donna,' Madle. Amico, as the heroine. 'La Closerie des Genets' at the Varietes, and 'La Voleuse d'Enfants,' a very sensational piece, at the Alcazar.

We regret to learn that the eldest son of Viscount Maua died recently in Rio Janeiro, of consumption, at the early age of 20 years.

We beg to return the salute of the editors of the *Español*, a new paper that appeared yesterday for the first time. The 'Bus' is filling up again. Another new colleague is on the tapis.

The river was again very low yesterday; the fore-runner of another terrific 'blow' perhaps.

A Mount paper mentions that there are at present 20 assassins in the jails of that city who have been condemned to death. Why are they not executed? or are they being left till some good chance of escape is afforded them?

The Asilo de Inmigrantes has been removed from Calle Corrientes to temporary quarters at the Retiro, till the new Asilo is built.

A letter from 'dear, dirty Dublin says:—Essex Bridge, just reconstructed, was thrown open to the public today without any ceremony whatever, although the almost unprecedented circumstance of the contractor having completed his work considerably within the time appointed might have justified some display. The wooden barricades were removed at 12 o'clock, but the people seemed to hesitate about availing themselves of the new accommodation; at length some street Arabs boldly risked the passage, and they having reached the opposite side in safety, a cabman took courage and drove cautiously over. The general traffic then set in."

What bird is that which is absolutely necessary that we should have at our dinner, and yet need neither be cooked or served up?—A swallow.

"I never betrayed a friend's confidence," said one lady to another by way of insinuation.—'Very true,' was the answer, 'for you were never entrusted with it.'

A recent exchange states that eighty emigrants have just returned from Brazil to Berlin in a miserable condition, having been forwarded from Antwerp at the expense of the German Consul. At Hanover several residents supplied them with provisions and clothes.

The *Manufacturer and Builder*, of New York, gives the following account of the Big Safe recently sent out here by Messrs. Chubb for the Public Credit Department—"It is a parallelopiped formed by plates of heavy iron, strongly rivetted at the edges. Within this is a second box as strongly constructed as the first, and separated from it by an air space. In this interior space the valuable property is placed. The interior filling is made with a composition the character of which is at present a secret, but appears to have a certain quantity of alum it. The dimensions of the safe are, height 11 ft. six inches; length 14 feet 9 inches; depth 5 feet. The plates are three quarters of an inch thick, at the corners the total thickness is 5 inches. Two doors, 1¼ inch thick, give access to the interior. They are made of steel and iron, and have compartments filled with non-conducting material. Two safety locks are attached, containing each a charge of gunpowder capable of firing 14 projectiles in all directions. Each lock is of a different form. The safe weighs 15 tons. It was shipped to its destination in pieces, and put together there by a mechanic who accompanied it for that purpose."

Hurrah! The Rio Grande papers expect the Ambassador, with the Chuy section of the Cable, to arrive there about the middle of this month. Good news this.

A few days ago the chief officer and four men belonging to the English Barque Seaward were out boat sailing in the roads when a sudden squall upset the boat, and for two hours they remained in the water in imminent peril of drowning. Two of the sailors who could not swim were bravely supported by the Chief officer until they were seen by the patron of the goleta J. G. B., who most humanely bore down to them and took them on board, where they remained two days till the pampero abated. The name of the lighterman is Giovacchino Mollo, and he declines to accept any gratuity whatever for the services rendered.

The Montevidean papers mention that preparations for Carnival are already spoken of down there. It is unlikely that there will be over much Carnival in Buenos Ayres in 1875. We have not forgotten the last one yet, nor recovered the cold caught from the unmerciful use of water on that occasion.

The latest Cordoba papers continue to weep over the recent surrender of the city, and like Rachel, refuse to be comforted. The event is now so very stale that we think our colleagues might afford to dry their eyes and pocket their 'light tissues.' Seven hundred mules have been expropriated, but whether for war purposes or not is not stated. The *Progreso* says that everybody is now expropriating on his own hook.

The *capital* of Rosario says the revolution has thrown the country back twenty years. We should say it has. There is little news from the future Headquarters of the Reserve Army. The export of 'pasto' from the province of Santa Fe is now estimated at 2500 bales per month.

We find in the *Pueblo* a list of the fines inflicted during the month of September by the Juez de Paz of Giles. There are in all nineteen names of the fined, three of which are English—one $1000 m|c for countermarking hides, another $200 m|c for row (commonly called 'escandalo') and the third a similar sum for birching a minor. Perhaps the minor deserved it. 'Spare the rod and spoil the child.'

PROTEST.

B. Ayres, Nov. 7th, 1874.

Messrs. Editors,

Permit me through your columns to renew my protest which I made on June 13th in defence of my rights as an Oriental citizen which have been trampled on by the Government and Tribunals of my country. In fact I have been treated with a kind of Russelian justice, for I can give it no other name, the island of Russel being one of those of Oceanica where the inhabitants live on their fellow beings. In proof of this treatment of me I hereby copy the following judicial document—

"And whereas the report of the physician and of Dr. Perez (who has never examined me), as well as of D. Gualberto Mendez, shew plainly that Dr. Manuel Payva is out of mind, the Fiscal will take the usual steps in such cases and archive this decree in favor of Salvador Milans (a dealer in shrubs)."

Vilaza.

For the injury so done me I mean to make the Government and country responsible, as in the following document presented by me to the Juez del Crimen of Primera Instancia.

"In the suit between me, Manuel Payva, and the shrub-dealers Salvador Milans and his wife Your Worship has decided that I am of unsound mind. This being a malicious invention I hereby hold you and the country responsible for the injury done to my interests."

Manuel Payva.

And as I suspect that some of my own family have been instrumental in getting me declared unsound of intellect, either for sordid reasons or otherwise, I mean to make this protest not only for myself but for my lawful heirs, both against the present and any future Government, as far as my interests are affected.

Manuel Payva.

ON 'CHANGE.

Nov. 7th 1874.

Ounces	400
Sovs	122½
Pats	25
Nat. Bonds	73
Cedulas	78

There is nothing much to report about Cedulas, the market was maintained during business hours but in the liquidation prices dropped and at 4 p. m. sellers were offering for end of month.

The political news to-day amounted to little beyond rumours; at 3 o'clock, however, it was announced that the Minister had sent in for his horses, and at the head of a picked division of 4,000 men he marches in pursuit of Mitre and Rivas; how far true this may be we cannot say, we give the news as the current rumour on 'Change this afternoon.

The sale of a lot of new wool at 104 by Unzue at the Plaza Once attracted more notice on 'Change than even the political news; this is the highest figure new wool has as yet reached.

The stock sales were—

Cedulas:		
Cash	3,600	77½
do	2,000	78
do	2,000	78½
End month	10,000	77½
do	20,000	77½
Nov. 5	20 000	78
Dec. 31	125,000	78
Nov. 27	15,000	77½
Dec. 31	10,000	78
Total sales	209,200	

In the liquidation nothing done, sellers for end of month and end of year offering at 77½.

Exchange rules upward, bills were passed freely at 49½, and one broker reports a business at 50 pence; bills on Antwerp and Paris 5,27-28. Money ruled very tight and collections greatly complained of.

There was some talk on 'Change to-day about a very large financial transaction, but we believe the business was not done. Treasury bills are offering freely for discount in the market and at very high rates.

The Douro is looked for in the morning; Mr. Anthony Bell of the leading firm of D. C. Thompson & Co we hear is amongst her passengers.

Mr. Ryder of the firm of Ryder & Merry, city architects, leaves in the Leibnitz for a short trip to Europe and the States.

Mr. John Coghlan C. E., we learn leaves for Europe in the Douro; Mr. Coghlan's name is honorably connected with some of our greatest River Plate enterprizes, he has filled with high credit the post of Provincial Government Engineer under successive administrations and his very wide circle of River Plate friends hope that he will soon return. Mr. Frazer, of D. C. Thompson and Co. also leaves for Europe in the same steamer, and Mr. James Bell sails for Liverpool in the Pacific steamer of 26th.

The sale of 20,000 arobas Entre Riano wool to deliver was announced to-day at 4 patacones per ar.

The French steamer Rivadavia left for Havre and Antwerp on the 5th Nov. by Messrs. Arnaud & Autie the agents, she took the following cargo:

20,367 dry hides.
3,058 wet salted hides.
786 bales.
976 bowlalesas tallow.

The same steamer leaving Montevideo the 7th November has shipped in the above port:

13,000 dry hides.
2,500 wet salted hides.
100 bales.

The very absorbing topic on 'Change this morning was not the money or wool markets, or the collections, but the shots heard last night by every one in town; no one can explain what they indicated, and as for bulls and rumours, we have no room for them.

The Montevidean steamer entered, but we had nothing of the mails per Douro or Potosi; the American agency published the following from Montevideo:—

Rio la Plata, Saturno, Rivadavia and five Argentine war steamers enter if there yesterday also the Europa from Genoa with emigrants. Deuda Interna nothing done, Playa shares 49-50, and Inmobiliaria shares 44. *Nothing* whatever about exchange.

The London papers of 3rd publish the following:—

"It is announced by the Western and Brazilian Telegraph Co. that, on and after the 15th inst. telegrams, in any language, can be prepaid to B. Ayres, the charge for twenty words being £12 3s. 8d., and half that rate for every additional ten words. Messages for places beyond and the West Coast of South America should be addressed "Oldham, Buenos Ayres", the further charges being collected from the receiver."

"The seventh Saturday of the war: Forty fifth day of the revolution! And now the war bell at last begins to toll: many there are who hear it not, but the Government decree this morning calling out a new, army of 15000 men, to be stationed in Rosario, is a knell that summons the market to victory or to..... The week we have closed has proved a kind of opening week for the campaign, an initiatory period, giving glimpses of a beginning rather than an end. The news from the South, from the provinces, from the East, in fact from everywhere shews if it shows anything at all, that men perhaps the wisest and most experienced in this market ill measured this struggle at the outset, and week in week out as we sail along, the current of events carries to goals we never cared for and quicksands persistently overlooked. Eschewing military matters and confining to the mere market we point to the triumph of the country over politics in the sudden rise of exchange to 49½; money tight, war raging, railways torn up and repaired, trains running here there and everywhere, but with guns, drums and dragoons instead of sheepskins and wool, our very port closed, telegraph cable cut, and steamers stopped from sailing. Yet with all this, exchange rises like the once famous credit of the country mocks the passions and errors of men, and points to the prosperity we were earning by the silent but ceaseless march of industry. The events of the week afford but a distasteful retrospect, the bank statement, 'curso forzoso' invitation, storm, wreck, ruins, &c. are all too fresh to memory to need repetition.

The packet we looked for has not come, but the mails we never expected (the American bags) have arrived, and in fact so it has proved throughout with everything; just to what was expected the very contrary occurred; Cedulas are up and down, but the market current is the same. The past 6 days show a zig zag in everything, but the goal is the same and let us not mistake it. There has been activity in our plazas during the week, and wools sell readily giving satisfaction both to the grower and the buyer. Some new faces have been seen at the railway stations, Antwerp buyers just arrived; they speak well of the new wool, and from the general appearance of the market the article looks well. The transit of Oldham and the repairing of the cable are events of more than a scientific importance; yesterday at the breezy call of incense breathing morn the little Naposta was dancing about with splices and grapnels, and in the ensuing week we may look for speaking communication with the Mount, as in the ensuing month we may hail the long lost piece of the Platino Cable. Again there is a beam of telegraphic sunshine over the Plate. Mr. Mercadier of the Havas Reuter Co. asks permission to supply the merchants and editors with news at half the present rates, whilst on Mercadier's heel comes the ubiquitous Caravidho who hands us a neat circular which for further particulars please see advertisement column. Thus with all the nitro glycerine elements around us, we close the week if not with enjoyment at least without sorrow, more still, with improved telegraphic auspices. On Monday, for the Leibnitz, we spread out for our readers a special supplemental sheet, giving all the news that comes within our range.

No Douro to-day, and no Potosi. The following important advices we extract from the latest papers per Leibnitz, the freshest in—

"The report of the new London and Brazilian Bank Limited states that the accounts for the year ended 31st July last show an available balance of £47,124 13s 7d (including £19,203 10s 5d., brought forward from last year). An interim dividend of 5s. per share, amounting to £11,250, was paid in April last. The directors now recommend a further payment of 7s. per share, making, with the previous distribution, the dividend for the year 12s. per share, or 6 per cent, free of income tax, on the paid-up capital of the Bank. These payments will absorb £27,000 of the above sum, leaving a balance of £20,124 13s 7d, to be carried forward to the next account. The recoveries during the year on account of the 'Angelica estate and accounts in realisation' amount to £13,896 17s 11d, and the balance of that account is thereby reduced to £120,014 7s 7d. The reserve of £51,234 9s 9d held against this account shows no alteration."

"East Argentine Railway Company (Limited) Issue of £212,000 seven per cent. First Mortgage debentures of £100 each to bearer. The Definitive Debenture Bonds of the above issue are now ready for delivery in exchange for the fully-paid Scrip.

"Offices, 43 Lothbury, London E. C.,
"Oct. 1st 1874."

"Messrs. Jacomb, Son, & Co. thus report: The third series of public sales of colonial wools which opened on the 18th August, has closed today. There has been throughout a very large attendance of the home trade, who, being bare of stock before the commencement of the sales, have operated freely. Continental customers were apathetic at first, but have since made more extensive purchases at higher prices, taking altogether a little more than one-third of the quantity sold. Some 3 or 4,000 bales have been taken for America. During the course of the sales there have been pretty considerable fluctuations in prices—tending upwards for the first week or ten days, downwards for a similar period succeeding, and thence upwards till very nearly the close. All good scoured wools have sold briskly throughout at an advance of 1d. to 1½d., and sometimes more, on last sale's price. A sudden demand for black wools for fancy undyed fabrics has resulted in extraordinary prices for the trifling quantity offered, as much as 2s. 7½d. being paid for scoured, 2s. 1½d. for washed, and 1s. 11d. for greasy. The bulk of the New Zealand clip has figured in this series—many of the quondam prime hot-water washed flocks show this season great falling off in growth and condition, which will account for the altered values of some. There is a great increase in the proportion of Lincoln and other coarse crosses; many parcels of these still run very uneven and irregular. Ensuing public sales are fixed to commence on Tuesday, November 17th. The whole quantity available for the series just closed has passed the hammer and about 17,000 bales more consisting of old stock and wools twice catalogued. The concluding sales of the year will comprise probably something less than 100,000 bales, including everything."

News has arrived from Colonia announcing very heavy losses in sheep in that district; on Mr Gill's estancia from 7 to 8000 sheep dead.

Referring to the remarks of our colleague the *Courrier de la Plata* respecting the non recognition of English Stamps on letters to France we are given to understand that the English Post-Office has never declined to recognize undefaced stamps when arriving in England from countries with which no Postal Treaty existe, but a necessary condition is that the letter must pass through an English Post-Office. The complaints spoken of have doubtless arisen from the Buenos Ayres Post-Office having forwarded prepaid letters for France either to Lisbon, Cherbourg or Antwerp, in which case the English Post-Office would take no cognizance of them. On board the French packet the practice differs, for there the Mail Agents sort the letters immediately they are put on board; in fact the steamer itself is a floating Post-Office.

We have received from a merchant the following—

"In your excellent review on the exports of this country, you mentioned the article of sheepskins, as an industry that has entirely disappeared from the country.

"In 1870 more than five hundred persons were employed in this industry and gained wages equal to skilled labour, but in 1871 the Government in their wisdom included the Lavaderos in the sweeping decree against the Saladeros as being the cause of the dreadful Yellow Fever and shut them up, to the great loss of the proprietors of Lavaderos, as the skins were cleaned by steam power, which required machinery of a most expensive kind and the washing of the skins did no harm whatever to the waters of the Riachuelo, as the same operation is carried on to-day in the centre of London, Bristol, Glasgow &c. by consent of the corporations of those cities.

"The Government has done nothing whatever to recompense the owners of Lavaderos for the heavy losses sustained by them in consequence of said decree. It is only just that a sufficient compensation be given for the sudden and complete stoppage of this industry which necessitated great outlay of capital.

"We call the attention of Government to this matter; as the decree was a mistake from the day it was issued."

SAVINGS BANK
BANK MAUA AND CO
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important initution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other novelties.

The Bank of Mauá & Co. of this city, following the example of their firm in Montevideo, offer the same facilities in this city, and has opened a Savings Bank at No 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned. Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1872.

P. P. MAUA & Co.,
M. A. DE FREITAS AMORIM,
E. DE LAS CARRERAS.

CONDITIONS.

First--The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

Por nombramiento de los interesados y autorizacion del Sr. Juez de 1.ª instancia en lo civil, Dr. D. Miguel Garcia Fernandez, el 9 del entrante mes de Noviembre, a las tres de la tarde, venderemos a quien mas diere y dinero de contado, la importante finca arriba mencionada, cuyos componentes son.

TERRENO.

Mide quince metros 155 milimetros de frente al Oeste, igual a 17 y ½ varas, por 47 metros 25 milimetros de fondo, igual a 56 varas, formando una area total de 982 y ½ varas cuadradas.

EDIFICIO.

Se compone de dos cuerpos, bajo y alto; el primero con dos almacenes a la calle, doce piezas, dos escaleras, tres zaguanes, y tres grandes patios, cochera, caballeriza, aljibe, un entrepiso para sirviente, deposito de pasto y granero dos zotanos independientes, para depositos de vinos el uno y de carbon el otro, &, &.
El segundo cuerpo es compuesto de una gran sala, ante-sala, dos gabinetes, once piezas, corredor, despensa, un hermoso mirador, &, &.
Todo el edificio es en cal; los pisos, de piedra Inglesa en los patios, y de madera en las piezas; entrepiso de dos hiladas de ladrillo y madera; techos de dos hiladas y baldosa, con tirantes y alfajias de madera dura reboques de cal al interior y esterior; cielos razos de yeso y de madera; galerias de hierro; techumbre del primer patio de hierro y cristales; barandas de hierro en las azoteas; primera colera y puertas y ventanas de las habitaciones principales, de caoba maciza; las demas puertas y ventanas exteriores, de riquisimo cedro, y las interiores, de pino.
Esta propiedad ha sido avaluada infimamente en 2,430,000$ como se vera en seguida:

Herreria id	150,000
Pintura y empapelado id.	95,000
Total	$2,430,000

Si bien el ramo de albañileria y demas accesorios del edificio han sido estimados equitativamente, no lo ha sido asi el terreno, pues este, sin duda alguna, comparado con otros que han sido vendidos en las inmediaciones, vale proximamente dos millones quinientos mil pesos.
En esta virtud, y en atencion a lo bajo de la avaluacion total, el Sr. Juez ha dispuesto que sirva esta como base minima para abrir el Remate.
La ubicacion de la finca en venta, en uno de los barrios mas importantes de esta Capital, y su comoda y elegante construccion, adaptable a Bancos, Grandes Hoteles, Compañias de Seguros y otros establecimientos que pagan crecidos alquileres, y entre cuyo radio se encuentra el fundo a rematarse, nos hace esperar que obtendremos por el un precio mucho mayor al reducido de su tasacion.
Esta propiedad a no dudarlo podra producir de 22 a 25,000 pesos de renta mensual.
El interesado que guste inspeccionarla, podra hacerlo cualquier dia antes del remate de 9 a 10 de la mañana o de 5 a 6 de la tarde.
